TYRES

SUB-SECTOR SERVICES

We offer solutions for all sub-sectors of the Automotive Market to achieve seamless delivery of auto parts and finished goods in a timely manner avoiding the posing threat of costly downtime and delays in new product launches to the market.

Technology

We provide digital account management through our customer portal, in constant development and optimization in line with your requirements and KPIs.

Global Account Management

Our +70 owned offices in 19 countries enable us to offer immediate attention with local resources, whether for programmed or spot purchase orders. We aim to standardize processes whilst maintaining services agile for the time critical nature of our business.

Compliance

Our procedures, annual audits and certifications assist in mitigating risk. We understand that complying with industry standards –from internal administration to cargo handling, with experts on HAZMAT in conventional or electric vehicles– not only supports our operations but builds confidence.

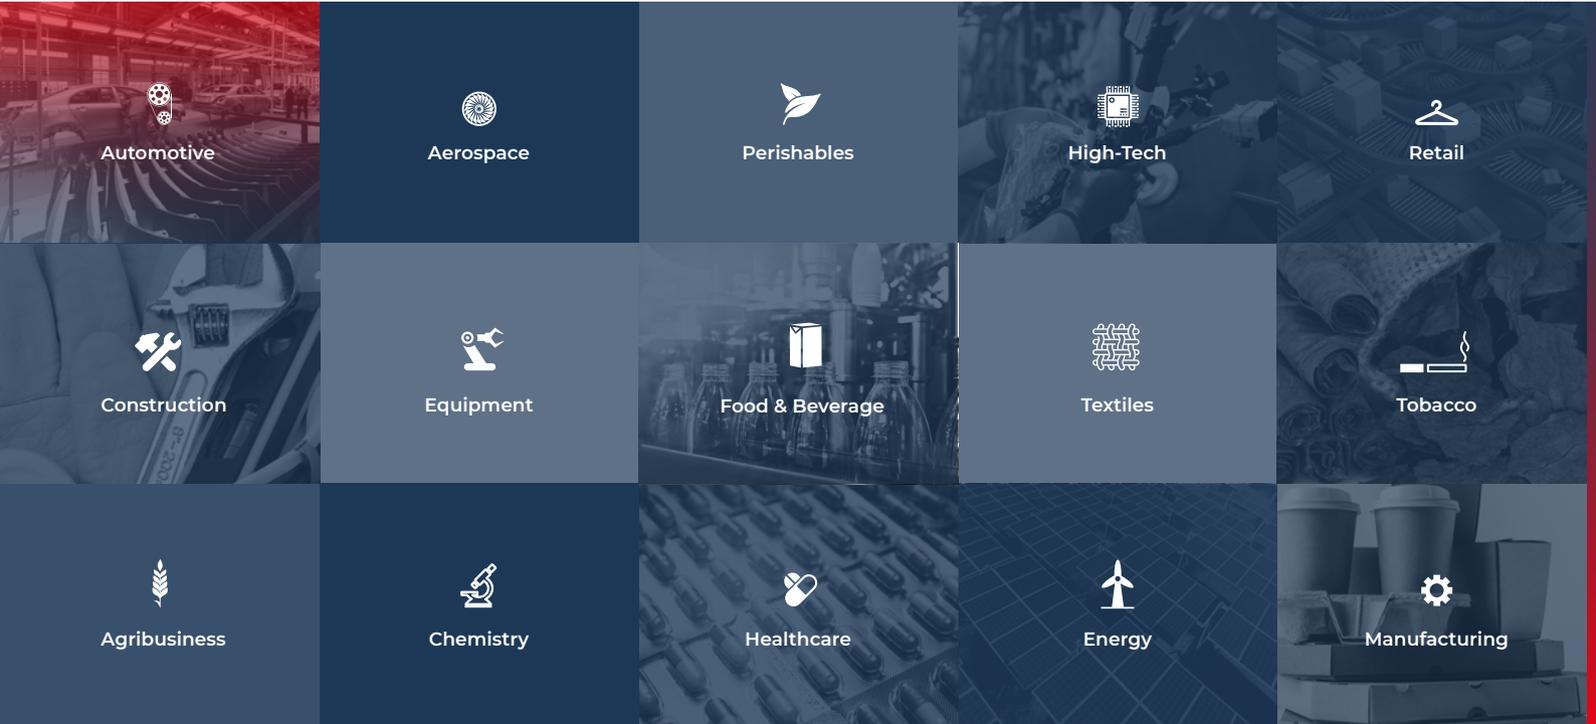

Focus

The automotive sector is a top priority within our business. Our team of experts are continuously updated on vanguard logistics solutions as well as market developments, working from pre series projects to the SOP stage of production. We transport prototypes of auto parts as well as finished vehicles within the value chain.

We work to make our clients in the **automotive industry** thrive

Success stories:

OEMs seldom have to face the challenge to recover operations and distribution after a strike.

Automotive Tier 2 who decided to adapt their production lines to stay on the market faced yet another challenge: find transport.

To avoid disruptions to an automotive Tier 1 supply chain, OBC services can be the most reliable solution.
