GROUND EXPEDITED

Time sensitive cargo all over North America in 48 hours

Time sensitive logistics

Speed

85%

Deliveries between 24 and 48 hours in the main industrial corridors of North America.

Capacity

100%

From 1lb to 9,000lbs. of loose and palletized cargo. Serves general and dangerous cargo.

Simplicity

100%

Friendly; it allows constant communication & visibility of the cargo.

Coverage

80%

Services available from north to south in Mexico, United States and Canada.

Cost

100%

Competitive; dedicated units from USD1,500 up to USD5,000.

Efficiency

95%

Quite high; the best relation between volume, cost & speed.

Effectiveness

90%

Good, but there are external risk factors (mechanical failures, traffic, weather, etc.).

Flexibility

90%

Flexible. You can change instructions to drive the cargo somewhere else.
